

# ONE PAGE BUSINESS CASE TEMPLATE

DATE	24.01.2023
SUBMITTED BY	VISHNUPRIYAN S
TITLE / ROLE	Online Voter ID Card Application / Web Designer

## THE PROJECT

- Democracy is an important matter in most modern societies.
- The problem of voting getting voter id card is still critical in terms of time taking.
- Online Voter ID Card Application System is an interface between the Applicant and the Authority responsible for the issue of voter id card
- If the entire process of the issue of the voter id card is done manually then it would take several months

## THE HISTORY

- The manual system does not provide secured registration and profile management of the Applicants properly.
- In manual system, all details are taken in the form of documents, which can be misplaced anytime.
- Every individual had to stand in queue, which is more time consuming and involves more manpower

## LIMITATIONS

- The Applicants require a computer to submit their information.
- Prior knowledge of computer skills is required
- Although the security is given high importance, there is always a chance of intrusion in the web world which requires constant monitoring.
- The Applicant must be careful while submitting the information

## APPROACH

### Software Requirements & Hardware Requirements

- Windows 8 or later
- Intel Pentium 4 or later
- 4 GB RAM or higher

## BENEFITS

- Security is provided.
- Less time consumption.
- Improves the efficiency.
- Reduces the complexities.
- Elimination of human error
